## 1 Biographical Statement

Njabulo Mbanjwa holds a BSc in Applied Mathematics and Physics at UKZN-Pietermaritzburg. He is currently pursuing BSc Honours Physics (NASSP) under the NASSP UKZN node. He is working on an investigation of the presence of Pc5 oscillations during TRINNI events as his research project under the supervision of Dr Zolile Mtumela and Dr Judy Stephenson as co-supervisor. His interest is to do research in Space weather.

In this course I will learn how to use python in data analysis of which will help me throughout my project since I will be analyzing SUPERDARN online data.
